## ARTIST TESTIMONIALS

**PAINT BIG SHIP SMALL**

These kits make so much sense! They paint big but ship small. I can finally get huge primed canvas in and out of my studio easily. Easy to transport and it took me less than 20 minutes to put my first one together. These kits are truly a game changer.

**MAKES MY ART TRULY PORTABLE**

I am on the road so often, the Fredrix stretch it yourself canvas allows me to work on large paintings from anywhere and saves money on shipping costs. I was stoked to find out how easy it was to assemble and stretch. I used to dread stretching canvas, now I can do it in 15 minutes. Makes my art truly portable.
