SAFETY DATA SHEET

1. Identification

	identifier GOLDEN MSA Varnish and GOLDEN MSA Topcoat with UVLS (Gloss, Matte or Satin Finish)	
Other means of identification	tion Not available.	
Recommended use	Final Protective Coating For Fine Ar	t.
Recommended restrictio	ns None known.	
Manufacturer / Importer /	Supplier / Distributor information	
Company name Address	Golden Artist Colors, Inc. 188 Bell Rd., New Berlin NY 13411 US	
Telephone	607-847-6154	
E-mail	gavett@goldenpaints.com	
Contact person	Ben Gavett	
Emergency phone nur	nber 607-847-6154	
2. Hazard(s) identific	cation	
Physical bazarda	Elammable liquide	Cotogon/2

Physical hazards Flammable liquids Category 3 Health hazards Skin corrosion/irritation Category 2 Sensitization, skin Category 1 Carcinogenicity Category 2 Specific target organ toxicity, single exposure Category 3 narcotic effects Specific target organ toxicity, repeated Category 2 (Kidney) exposure **OSHA** defined hazards Not classified.

Label elements

Signal word	Warning		
Hazard statement	May cause an allergic skin reaction. Suspected of causing cancer. May cause damage to organs (Kidney) through prolonged or repeated exposure.		
Precautionary statement			
Prevention	Do not handle until all safety precautions have been read and understood. Keep away from heat/sparks/open flames/hot surfaces No smoking. Keep container tightly closed. Ground/bond container and receiving equipment. Use explosion-proof electrical/ventilating/lighting equipment. Use only non-sparking tools. Take precautionary measures against static discharge. Wear protective gloves/protective clothing/eye protection/face protection. Do not breathe mist/vapors/spray. Contaminated work clothing must not be allowed out of the workplace. Do not eat, drink or smoke when using this product. Wash thoroughly after handling.		
Response	contaminated clothing. Rinse skin with water/s advice/attention. Wash contaminated clothing	attention. If on skin (or hair): Take off immediately all shower. If skin irritation or rash occurs: Get medical before reuse. If inhaled: Remove person to fresh air son center/doctor if you feel unwell. In case of fire: or fog for extinction.	
Storage	Store in a well-ventilated place. Keep containe	r tightly closed. Keep cool. Store locked up.	
Disposal	Dispose of contents/container in accordance w	vith local/regional/national/international regulations.	
Hazard(s) not otherwise classified (HNOC)	Static accumulating flammable liquids		
Environmental hazards	Hazardous to the aquatic environment, acute hazard	Category 2	
	Hazardous to the aquatic environment, long-term hazard	Category 2	

Hazard symbol

Toxic to aquatic life with long lasting effects.

Hazard statementToxic to aquaticPrecautionary statementAvoid release toPreventionAvoid release toResponseCollect spillage.

Avoid release to the environment.

3. Composition/information on ingredients

Mixtures

Chemical name	CAS number	%
Stoddard solvent	8052-41-3	50-<60
Silicon dioxide	112945-52-5	5-<10
Solvent naphtha (petroleum), heavy arom.	64742-94-5	3-<5
Bis(1,2,2,6,6-pentam ethyl-4-piperidyl) sebacate	41556-26-7	0.1 -< 1
Naphthalene	91-20-3	0.1 -< 1

Composition comments

All concentrations are in percent by weight unless ingredient is a gas. Gas concentrations are in percent by volume.

4. First-aid measures

Inhalation	Move to fresh air. If breathing is difficult, give oxygen. Get medical attention.
Skin contact	Remove contaminated clothing immediately and wash skin with soap and water. Continue to rinse for at least 15 minutes. In case of eczema or other skin disorders: Seek medical attention and take along this MSDS.
Eye contact	Immediately flush eyes with plenty of water for at least 15 minutes. Remove contact lenses, if present and easy to do. Get medical attention if irritation develops and persists.
Ingestion	Rinse mouth thoroughly with water and give large amounts of milk or water to people not unconscious. Only induce vomiting at the instruction of medical personnel. Get medical attention if any discomfort continues.
Most important symptoms/effects, acute and delayed	Overexposure to mists/vapors of this product may cause headache, dizziness, nausea, and respiratory tract irritation. Symptoms include itching, burning, redness and tearing. Vapors may cause drowsiness and dizziness. Defats the skin.
Indication of immediate medical attention and special treatment needed	Treat symptomatically. The effects might be delayed.
General information	Thermal burns: Flush with water immediately. While flushing, remove clothes which do not adhere to affected area. Call an ambulance. Continue flushing during transport to hospital.

5. Fire-fighting measures

Suitable extinguishing media Unsuitable extinguishing media	Foam. Carbon dioxide (CO2). Dry chemical. Powder. Do not use water jet as an extinguisher, as this will spread the fire.
Specific hazards arising from the chemical	Thermal decomposition may produce smoke, oxides of carbon and lower molecular weight organic compounds whose composition have not been characterized.
Special protective equipment and precautions for firefighters	Self-contained breathing apparatus and full protective clothing must be worn in case of fire.
Fire-fighting equipment/instructions	Move containers from fire area if you can do so without risk. Use water spray to cool unopened containers. Cool containers with flooding quantities of water until well after fire is out.
6. Accidental release meas	sures

Personal precautions,
protective equipment and
emergency proceduresExtinguish all ignition sources. Avoid sparks, flames, heat and smoking. Ventilate. Avoid inhalation
of vapors and spray mist and contact with skin and eyes. Wear suitable protective clothing. For
personal protection, see section 8 of the SDS.Methods and materials for
containment and cleaning upRemove sources of ignition. Stop the flow of material, if this is without risk. Dike the spilled
material, where this is possible. Collect spillage. Absorb spillage with non-combustible, absorbent
material.

Do not discharge into drains, water courses or onto the ground.

7. Handling and storage

Precautions for safe handling

Use only in well-ventilated areas. Avoid inhalation of vapors/spray and contact with skin and eyes. Wear appropriate personal protective equipment. The product is flammable, and heating may generate vapors which may form explosive vapor/air mixtures. Do not smoke and do not spray near a naked flame or other sources of ignition. Read label before use. Do not smoke and do not spray near an open flame or other sources of ignition.

Conditions for safe storage, including any incompatibilities

Keep away from heat, sparks and open flame. Keep in a cool, well-ventilated place. Keep out of reach of children.

8. Exposure controls/personal protection

Occupational exposure limits

US. OSHA Table Z-1 Limits for Air Contaminants (29 CFR 1910.1000)

Components	Туре	Value	
Naphthalene (CAS 91-20-3)	PEL	50 mg/m3	
		10 ppm	
Stoddard solvent (CAS 8052-41-3)	PEL	2900 mg/m3	
US. OSHA Table Z-3 (29 CFI	2 1010 1000)	500 ppm	
-	-		
Components	Туре	Value	
Silicon dioxide (CAS 112945-52-5)	TWA	0.8 mg/m3	
US. ACGIH Threshold Limit	Values	20 mppcf

logical limit values	No biological exposure limits noted f	or the ingredient(s).	
osure guidelines			
US ACGIH Threshold Limit	Values: Skin designation		
Naphthalene (CAS 91-20	-3) Can	be absorbed through the skin.	
propriate engineering trols	Use explosion-proof ventilation equipment. Provide adequate ventilation. Observe Occupational Exposure Limits and minimize the risk of inhalation of spray. Provide easy access to water supply or an emergency shower.		
vidual protection measures,	such as personal protective equipr	nent	
Eye/face protection	Wear approved safety glasses or goggles.		
Skin protection			
Hand protection	Solvent-resistant gloves. Be aware that the liquid may penetrate the gloves. Frequent change is advisable. Suitable gloves can be recommended by the glove supplier.		

Other	Wear appropriate chemical resistant clothing to prevent any possibility of skin contact.
Respiratory protection	Use a NIOSH/MSHA approved air purifying respirator as needed to control exposure. Consult with respirator manufacturer to determine respirator selection, use, and limitations. Use positive pressure, air-supplied respirator for uncontrolled releases or when air purifying respirator limitations may be exceeded. Follow respirator protection program requirements (OSHA 1910.134 and ANSI Z88.2) for all respirator use.
Thermal hazards	Wear appropriate thermal protective clothing, when necessary.
General hygiene considerations	Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants. Private clothes and working clothes should be kept separately. Personal protective equipment should not be worn during lunch breaks.

9. Physical and chemical properties

5. Thysical and chemical p	bioperties
Appearance	Clear, viscous liquid.
Physical state	Liquid.
Form	Viscous liquid.
Color	Clear.
Odor	Mineral spirits
Odor threshold	Not available.
рН	Not applicable.
Melting point/freezing point	Not available.
Initial boiling point and boiling range	Not available.
Flash point	105.8 °F (41.0 °C) Tag Closed Cup
Evaporation rate	Not available.
Flammability (solid, gas)	Not applicable.
Upper/lower flammability or exp	losive limits
Flammability limit - lower (%)	Not available.
Flammability limit - upper (%)	Not available.
Vapor pressure	Not available.
Vapor density	Not available.
Relative density	0.91
Solubility(ies)	Not available.
Partition coefficient (n-octanol/water)	Not available.
Auto-ignition temperature	Not available.
Decomposition temperature	Not available.
Viscosity	2000 - 4500 cP
Other information	
VOC (Weight %)	56.5 % w/w
10. Stability and reactivity	
Reactivity	Stable at normal conditions.
Chemical stability	Material is stable under normal conditions

Reactivity	Stable at normal conditions.
Chemical stability	Material is stable under normal conditions.
Possibility of hazardous reactions	Will not occur.
Conditions to avoid	Heat, sparks, flames, elevated temperatures. Contact with incompatible materials.
Incompatible materials	Strong acids. Strong oxidizing agents.
Hazardous decomposition products	Thermal decomposition or combustion may liberate carbon oxides and other toxic gases or vapors.

11. Toxicological information

Ingestion

Information on likely routes of exposure

Ingestion may cause irritation and malaise.

Inhalation	Vapors and spray mist may irritate throat and respiratory system and cause coughing. May cause central nervous system effects.		
Skin contact	Causes skin irritation.		
Eye contact	May cause eye irritation.		
Symptoms related to the physical, chemical and toxicological characteristics	Overexposure to mists/vapors of this product may cause headache, dizziness, nausea, and respiratory tract irritation. Symptoms include itching, burning, redness and tearing. Defats the skin.		
Information on toxicological eff	ects		
Acute toxicity	May cause central nervous sy	/stem effects.	
Components	Species		Test Results
Bis(1,2,2,6,6-pentamethyl-4-piper Acute Oral	idyl) sebacate (CAS 41556-26-	7)
